At STPS, we believe that each child is a unique individual who learns in his or her own way. To meet each child's needs, we provide a rich variety of activities and experiences. We endeavor to create a warm, accepting atmosphere in which each child feels secure and ready to explore. Learning is an ongoing process which begins in the home and expands as horizons widen. With help from parents and by means of a curriculum that is sensitive to individual development, teachers guide children as they grow towards maturity and selfhood. It is our hope that each day offers challenge without pressure and many opportunities for success. We want every child to return home each afternoon feeling happy and confident.

Our Early Bird, Kid's Workshop and Afternoon Explorers Programs offer the option of adding extended hours to our CORE preschool classes. These options provide the families with the opportunity to choose from 1-5 days and the times that best suit each individual family. Children will participate in a variety of activities - nature walks, scavenger hunts, creating collages, clay sculptures, drawing and painting - and outdoor play. We provide an opportunity for creativity, exploration and lots of imaginative play that connect children to their core classes.

Families are encouraged to sign up for the Extended Day Programs at the beginning of registration as spaces are limited.
